I have an innovative program where I can write a book about your company .

This is a customized program and so to discuss the project please contact Dr.Afshan Hashmi. The program fees will be discussed depending upon the level of research and time the project requires.

1. If you are a company or a thought leader interested in a book written about you and/or your company?

My content and ideas are generated by performing extensive research which comes from interacting with your management team and learning from them. I do also my independent research to see how your business model can help businesses globally. I go deep and broad learning about some of the world's most admired and exciting thought leaders and/or companies which are inspiring and leading innovation.

2. Also I can be a spokesperson for your company telling your story in my unique way.
